

Advancing Warriors

Peer Support Group

Our Mission

Our mission is to equip veterans and first responders and their supporters with everything they need to overcome their own darkness and help their brothers and sisters find freedom.

Our Vision

Despite the tremendous efforts of the government and the VA to provide care for the men and women who have sacrificed so much for this country, 22 veterans are ending their lives every day. Sadly, the average first responder experiences 188 'critical events' in a career and only an average lifespan of five years following retirement. Our vision is to help provide a platform that offers holistic support in the form of 8-week groups, monthly meet-ups, peer support mountain retreats, and the opportunity for free psychiatric care based on each individual's needs in order to help combat isolation, suicide, and post-traumatic stress.

Our programs equip people to learn how to see themselves as so much more than products of their experiences and whom others in their lives have defined them to be. These programs are peer-led by those who have been through their own struggles and hardships and now want to help their brothers and sisters heal and experience an abundant life in Christ, break the cycle of fear, stagnation, avoidance, and isolation. Join an authentic tribe of people who have been through the darkest night and are climbing out of the shadows and back on the mountain top. Take action and find your mission and motivation for life. Join a team of people that will work together to break down walls and barriers to healing, health, and success. All groups have remote clinical supervision of a board certified Psychiatrist as well as free Psychiatric care offered to those participants who need it.

Scheduling information:

To schedule please reach out to info@advancingwarriors.org or call 720-239-2152. Please mention Revital when signing up.
